

LIGHT SPEED CAULKING GUN

Description

Selleys Light Speed Caulking Gun is a durable, innovative tool that is easy to use and leaves no mess.

Selleys Light Speed Caulking Gun is ideal for professionals using caulking guns on a regular basis for a wide range of applications.

Uses

- ▶ For use with standard 300ml cartridge products
- ▶ Can be used with over 95% of cartridges on the market

Technical Features

- ▶ Low gearing – generates high pressure with less effort
- ▶ Cartridge attachment via base of canister – just lock'n'load
- ▶ Auto-stop function – helps reduce run-on
- ▶ Pressure release mechanism – for single hand operation
- ▶ 360° tube rotation capability - now it is possible to continue caulking when you reach a corner
- ▶ Lightweight construction - only 289 grams
- ▶ Ergonomic design
- ▶ Frame force tested at over 1,000 Newtons
- ▶ Made from durable PP, ABS & HDPE plastics and steel

Application Tips

- ▶ To insert cartridge, firmly insert base of cartridge into gun
- ▶ To release pressure, squeeze small trigger (eject/reverse trigger)
- ▶ To release cartridge, pull back on the plunger as far as possible then squeeze the small trigger whilst pulling cartridge out of gun
- ▶ Store with plunger head fully retracted for quick fitting of a new cartridge when beginning to use
